Committee Comments:

INSTRUCTIONS: To enable the Board to envision the scope of your project or change to existing architecture or landscaping, sketch your project on the back side of this form in sufficient detail so that the Board can make a decision. Provide a site plan including unit location and indicate where on the property the improvement is to be located. Send the completed application to the Tanglewood Association Office or give directly to the Architectural Control Chairman after you are certain that all information requested has been included to the best of your ability.
